L. C.

1891–1892.

ANNALS OF MATHEMATICS.

ORMOND STONE, Editor.

W. M. THORNTON,
R. S. WOODWARD,
JAMES McMAHON,
WM. H. ECHOLS,
} Associate Editors.

OFFICE OF PUBLICATION: UNIVERSITY OF VIRGINIA.

Volume 6.

ALL COMMUNICATIONS should be addressed to ORMOND STONE, University Station, Charlottesville, Va., U. S. A.

Entered at the Post Office as second-class mail matter.

INDEX.

BAKER'S Elliptic Functions, ... 20

BÔCHER, MAXIME, On Bessel's Functions of the Second Kind, . . 85

— Pockels on the Differential Equation $\Delta u + k^2 u = 0$, . . . 91

— On a Nine Point Conic, ... 132

— On Some Applications of Bessel's Functions with Pure Imaginary Index, ... 137

— Note on the Nine Point Conic, ... 178

BOYD, JAS. H., An Application of Elliptic Functions to a Problem in Geometry, ... 93

— Note on "An Application of Elliptic Functions to a Problem in Geometry," 163

BROWN, W. V., The Cartesian Oval and Related Curves as Sections of the Anchor Ring, ... 161

DAVIS'S Logic of Algebra, ... 98

ECHOLS, W. H., On Certain Determinant Forms and their Applications, . 105

Equivalence, On the Permanence of, ... 81

Exercises, ... 31, 60, 75, 104, 136, 168

FISKE, THOS. S., On Certain Space and Surface Integrals, . . . 61

— Note, ... 131

— Weierstrass's Elliptic Integral, ... 7

GORTON, W. C. L., On Centres and Lines of Mean Position, . . . 33

HALL, ASAPH, Jr., Tisserand on the Theory of the Moon, . . . 126

HARRIS, ROLLIN A., Note on Isogonal Transformation: Particularly on Obtaining Certain Systems of Curves which occur in the Statics of Polynomials, ... 77

HEAL, WM. E., The Bitangential of the Quintic, ... 64

HUSSEY, W. J., On the Partial Derivatives of the Potential Function in the Problem of n Bodies, ... 12
KUMMELL, CHAS. H., Symmetries of the Cubic and Methods of Treating the Irreducible Case, ... 179
LOUD, F. H., A Theorem in Plane Cubics, ... 5
LUDLOW'S Trigonometry, ... 76
NEWSON, H. B., On Salmon's and MacCullagh's Methods of Generating Quadric Surfaces. 198
SAYRE, H. A., On the Depression of an Algebraic Equation when a Pair of its Roots are connected by a Given Linear Equation, ... 45
SAWIN, A. M., Lagrange's Sextic, ... 1
— The Algebraic Solution of Equations, ... 169
Solutions of Exercises, ... 23, 57, 69, 99, 133, 166, 199
SWAIN, GEO. F., Eddy's Solution of a Problem in Graphical Statics, . 47
WOODWARD, R. S., Tisserand's Mécanique Céleste, ... 49
ZIWET, ALEXANDER, Two New Works on Grassman's Geometrical Calculus, 14

ERRATA.

Page 59, line 3, for

$$= \frac{1}{3^{\frac{1}{2}}} \frac{V}{4g} \int_0^{\sqrt{3}} (\tan^{\frac{1}{2}}\theta + \tan^{\frac{1}{2}}\theta)\, d\tan\theta = \frac{44_1}{153} \frac{3}{g} V .$$

read

$$= \frac{1}{3^{\frac{1}{2}}} \frac{V}{4g} \int_0^{\sqrt{3}} (\tan^{\frac{1}{2}}\theta + \tan^{-\frac{1}{2}}\theta)\, d\tan\theta = \frac{4}{3} \frac{V}{g} .$$

Page 75, line 10, for $\pi - \theta$ read $\pi - 2\theta$.
